## TREASURY DEPARTMENT,

COMPTROLLER'S OFFICE,

ANNAPOLIS, Jan. 10th, 1866.

*To the General Assembly of Maryland:*

The following Report is respectfully submitted in obedience to the requirements of the third section of the sixth Article of the Constitution, and of section nine, of Article XXII, of the Code of Public General Laws:

There has been received into the Treasury, from all sources, during the Fiscal Year which ended the 30th day of September, 1865, the sum of \$2,681,592.20, as will appear by Statement "A," in the appendix to this Report. Of this amount the sum of \$830,745.81 proceeded from a loan negotiated by the Treasurer, and the sum of \$248,742.26 was derived from the Public School Tax. If these sums be deducted, there appears as received from the ordinary sources of revenue, the sum of \$1,602,104.13, which amount is less by the sum of \$110,013.34 than the receipts from similar sources during the last Fiscal Year. The deficit will be found principally in the arrearages of taxes, and is caused by the reduction of the State Direct Tax from twenty-five to fifteen cents in each one hundred dollars.

The disbursements during the year, as will appear by Statement "B," amounted to \$3,125,565.53. The chief expenditures were for Bounties to Volunteers, for Interest on the Public Debt, and for the expenses of the Constitutional Convention and General Assembly. Certificates of indebtedness to the amount of \$56,525.39, issued under chapter 347 of 1846, on account of the Annapolis and Elkridge Rail Road, have been redeemed during the year.

The balance in the Treasury at the close of the Fiscal Year, including the amounts standing to the credit of the "Funds,"

and the amount received on account of the Public School Tax, is shown by the following statement:

Receipts from all sources,.....	\$2,681,592 20
Balance in the Treasury 30th Sept. 1864,...	876,899 33
	<hr/>
Disbursements,.....	\$3,558,491 53
	<hr/>
	\$432,926 00
Add am't to the credit of Free Schools Fund,	43,773 34
“ “ “ “ of Sinking Fund,....	177,178 72
	<hr/>
Total balance in Treasury 30th Sept. 1865,...	\$653,878 06

If, however, there be deducted from this amount, the balance to the credit of the “Funds” and the Public School Tax, the balance in the Treasury proper is \$184,183.74.

There has been paid within the Fiscal Year, on account of Bounties to Volunteers and others, the sum of \$1,762,420.88, exceeding the amount realized from loans by the sum of \$931,673.07, and the amount from both loans and the bounty tax by the sum of \$666,378.17. The total amount paid by this Department to the 30th day of September 1865, for bounties, is \$3,044,089.78. The total amount realized from loans, is \$1,356,930.81, and from the bounty tax of ten cents in each hundred dollars, is \$460,495.80, leaving the balance of \$1,226,663.17 paid from the revenue derived from other and ordinary sources, as will more clearly appear by reference to Statement “K.”

This result is the more striking when it is remembered that the State Direct Tax is only five cents in each one hundred dollars; and also, that during the same period, the expenses of the Constitutional Convention and one Session of the General Assembly have been paid, and large sums expended in providing exchange for the payment of the Interest on the Sterling Debt.

Under the provisions of chapter 49, of the Act of 1865, amendatory of chapter 15, of 1864, a large number of additional rolls, embracing the Third Maryland Cavalry, and parts of thirteen other Regiments of White Volunteers, and the Second, Fourth, Seventh and Ninth Regiments of U. S. Colored Troops, and parts of five others, have been certified and returned to this Department. By the same Act the bounties were made payable directly from the Treasury, and not, as before, through the agency of the County Commissioners and City Register. The duties of this office were thus largely increased. Not less than fifteen thousand claims have been examined, many of which were incomplete or informal, and

had to be returned to the parties for correction, often more than once. The Oyster and other laws of the same Session also imposed new and additional duties.

By reason of this large increase of business, the regular clerical force is insufficient. I respectfully request, therefore, that express authority be granted for the temporary employment of such additional assistance as may be found necessary.

There is no provision in the Act of 1864, chapter 15, which requires the County Commissioners or City Register to account for the money placed in their hands for the payment of bounties, although they are expressly held responsible for any misapplication of the fund. Some legislation is necessary to secure a full report of their proceedings and a prompt return to the Treasury of the balance in their hands.

The receipts into the Treasury during the year ending the 30th of September, 1866, as estimated in Statement "C," will probably amount to \$2,243,000. The probable disbursements are estimated in Statement "D" at \$3,025,000, and, as it is supposed, will exceed the receipts by the sum of \$782,000.

The principal item in the estimate of disbursements, is the sum of \$1,250,000 for bounties. This estimate is based on the certified rolls on file in this Office, and, assuming that nearly all the outstanding claims to bounty will be presented during the year, is not thought too high. These rolls indicate that the total unliquidated liabilities of the State, on this account, at the close of the fiscal year, were as follows.

For final bounty to White Volunteers, under Act of 1864, and supplements, averaged at \$65, .....	\$158,075 00
Full bounty to 246 Free Colored Volunteers, at \$300, .....	73,800 00
Full bounty to 725, (Free or Slave,) averaged at \$250, .....	181,250 00
Full bounty to 2059 former Slaves, at \$100, ..	205,900 00
Final bounty to 2379 Colored Volunteers, at \$50, .....	118,950 00
Owners' claims, 611, at \$100, .....	61,100 00
	<hr/>
	\$799,075 00
State Bounty Commissioners' drafts, per ch. 33, of 1865, .....	417,300 00
For Volunteers under both Acts, on rolls not yet returned, estimated at .....	233,625 00
	<hr/>
Total amount of bounty claims due and unpaid on 30th Sept. 1865, .....	\$1,450,000 00

The forfeiture of their right to bounty by some of the volunteers, and the death of others without heirs entitled to claim, will reduce this aggregate considerably.

It may be stated, as a matter of interest, that there has been paid on this account since the 30th September, 1865, the sum of \$642,200, and that at the present time, the total amount of outstanding claims will not exceed \$800,000.

The Treasurer was authorized by the Act of 1865, chapter 33, to issue bonds of the State to an amount not exceeding four millions of dollars. In pursuance of its directions he issued proposals for two millions of dollars, but bids only to a small amount were made, and at such rates as were not deemed acceptable. The General Government 7.30 Loan was then in the market, and appeared to engage the attention of capitalists to the exclusion of the State Loan, because of the higher rate of interest paid, and the fact that the bonds were exempt from taxation. He therefore determined to withdraw the State's Bonds. He afterwards succeeded in negotiating with the Banks a temporary loan of \$830,745 81 at six *per centum* interest. It was expressly agreed however, that at the expiration of nine months from the date of the loan, (the second day of June, 1865,) the same was to be repaid.

For the purpose of enabling the Treasurer to meet his engagements with the Banks, it is important that some action be promptly taken. It is necessary, too, to provide for the anticipated deficit in the Treasury. With this view I respectfully recommend that your Honorable Body direct the sale of the Baltimore City and Bank Stocks held by the State, and the State Tobacco Warehouses and Wharves; all of which may now be sold upon very favorable terms. The character of the Stocks referred to, as well as their par value, is shown by the following statement:

Bank Stocks held by State,.....	\$463,406 66	
Bank Stocks for use of School Fund,.....	120,440 00	
	<hr/>	\$583,846 66
Baltimore City 6 per cent. Stock, School Fund,.....	113,058 98	
Baltimore City 6 per cent. Stock, Sinking Fund,.....	154,550 00	
	<hr/>	267,608 98
York and Cumberland R. R. Bonds, guaranteed by Baltimore City—School Fund,.....	60,500 00	
Stock of Union Manufacturing Company,.....	10,000 00	
	<hr/>	\$921,955 64

The proceeds of that portion of the Stock held for the use of the Sinking and School Funds could be invested in the Defence Loan of the State. This would render the income of the Schools not only perfectly secure, but stable; and not liable to fluctuation, as it is at present.

Should this plan meet your approval, it will afford ample means, it is believed, not only for the prompt redemption of the temporary loan of the Banks, and for the payment of other heavy and pressing demands on the Treasury, but will do away with the necessity for selling the State's Bonds, and adding to her debt probably one and a half millions of dollars.

There was received during the fiscal year on account of the Free Schools Fund, as per Statement "E," \$87,132.83, and exceeds the amount received during the previous year by \$11,433.94. The balance at the close of the last year to the credit of this fund was \$27,417.47, which sum added to the receipts of the present year makes an aggregate of \$114,550.30.

The disbursements on the same account were \$70,776.96, leaving to the credit of the Fund \$43,773.34.

It will also appear from Statement "E," that the balance in the Treasury to the credit of the Sinking Fund is \$177,178.72. The greater portion of the State Stock held for the use of this Fund, has been cancelled by the Treasurer, as directed by the Act of 1864, chapter 285. The amount and character of the Stocks now held, is shown by Statement "F."

The revenue derived from Licenses, &c., received from the Clerk of the Court of Common Pleas and Clerks of the Circuit Courts, as is exhibited by Table "No. 1," of the Appendix, amounted to \$352,606.26, exceeding the amount received during the previous year by \$29,006, and during the year 1863 by \$59,074.87. The accession of capital and population not only to the City of Baltimore, but to the Counties, warrants the conclusion that the revenue from this source will steadily increase.

There has been received from Registers of Wills for tax on commissions of executors and administrators and on collateral inheritances, the sum of \$61,468.29 being an increase of \$5,510.04 as compared with the revenue from the same source last year.

It is worthy of remark that not one of the present incumbents of the office of Clerk or Register is in default to the State. The promptness, too, with which their returns have been forwarded, and payments made into the Treasury, is very gratifying.

The Baltimore and Ohio Railroad Company paid into the Treasury during the fiscal year \$393,262.32, being less than was paid during the year 1864, by the sum of \$19,639.91. An extra dividend was declared in that year. This company, however, since the close of the fiscal year, has made large payments into the Treasury.

The ability and success with which this important work has heretofore been managed is still exhibited, even in a greater degree.

There has been received from the Northern Central Rail Road Company, \$90,000, the annuity due the State according to the terms of her mortgage, and also \$831.52 which had been withheld in the previous year for the payment of a tax claimed by the State of Pennsylvania. The payments have been made quarterly, and with commendable promptness.

The Susquehanna Canal Company has also paid \$60,000. This sum was not equal to the current interest due from the Company, and cost of exchange. There is still large arrears of interest unsettled. The Act of 1865, chapter 196, authorized the Treasurer to renew the bonds of this Company (which were due on the 1st of January 1864,) for twenty years, with the principal and interest, at the rate of six *per centum*, payable in currency, upon the payment of all arrearages of interest, exchange and expenses, before the 1st of July last. The Company has totally failed to comply with this condition. The operations of this Company have been seriously impeded by the injuries sustained from the heavy freshets of the last Spring.

During the fiscal year, there was received from the Inspectors of Flour \$3,157.06, a larger sum than was received from this source in the year 1864. The returns of the Inspectors have been properly made, and their transactions with this Office very satisfactory.

The system of Grain Inspections, under the management of the present efficient officers, is working admirably, and although no revenue has yet been received, the indications are that a considerable sum will be paid into the Treasury during the current year.

The receipts from the State Tobacco Warehouses and Wharves, after deducting the salaries of officers and expenses, amounted to \$13,171.92—less than two *per centum* on seven hundred thousand dollars. The latter sum is much below the estimated value of this property. No blame is attributed to the officers in charge of the Warehouses and Wharves for this result. They have exhibited an earnest desire to protect the interests of the State, and their opera-

tions have no doubt been attended with as little expense as possible. It is clearly the interest of the State to sell this property.

The receipts, during the fiscal year, from License to Catch Cysters, issued under chapter 181 of 1865, amounted to \$1,430.20. A much larger sum will be realized before the close of the license year, the 1st of June next, but it is not believed, unless some means be provided for the speedy and effective punishment of the violaters of the law, that the receipts from this source will exceed, in any one year, \$50,000. A tax of two or three cents per bushel, if its collection be practicable, would yield a much larger revenue.

The Act should be amended in several particulars. I respectfully suggest that a Justice of the Peace be authorized to administer the oath required of the applicant for dredging license. The expense and trouble of a visit to this Office may thus be saved to those who reside at a distance.

There have been no sales of the Land Scrip, amounting to nearly two hundred and ten thousand acres, which was donated to the State by the Act of Congress of July 2d, 1862, for the benefit of agriculture and the mechanic arts. The prices offered therefor were considered wholly inadequate.

It will appear by Statement "II," that the assessed value of the real and personal property in the State, liable to direct taxation, is \$278,507,519, being a decrease from the assessment of last year of \$7,234,836. This difference is caused by the fact that all assessments on account of slaves were deducted from the tax books, as required by chapter 113 of 1865.

The importance of a general assessment was urged upon the General Assembly at its last session by my predecessor. I respectfully, but earnestly reiterate the recommendation.

According to the general assessment made in 1852, the value of real and personal property was \$261,243,660, exhibiting an increase of \$49,667,825 when compared with the year immediately preceding, and of \$64,492,515, or nearly *thirty-three per centum*, when compared with the general assessment of 1841, only eleven years before.

When it is considered that more than thirteen years have elapsed since the assessment in 1852, and that the State has rapidly increased in population, wealth and general prosperity, and that the assessment of the present year exceeds the general assessment of 1852, but in the sum of \$17,263,859, or less than *seven per centum*; it is not unreasonable to suppose that a new assessment would insure a taxable basis of at least \$350,000,000, notwithstanding the large investments by the people of the State in non-taxable Government securities.

If the result should prove the correctness of this estimate, a large increase of revenue will be secured to the general Treasury and to the Schools.

A re-assessment is necessary, also, that the burthens of taxation may be equally distributed. In some portions of the State, property has greatly enhanced in value, in others, only to an inconsiderable extent. Many persons, too, regardless of the moral and political obligation to bear their just proportion of the taxes necessary for the support and good credit of the State, secrete their securities, and perhaps other property, when others, more honest, and the farmer, mechanic and tradesman generally, are assessed to the full value of their estate. This inequality is a heavy grievance, and is aggravated by the lapse of time.

There are other subjects of interest which I desired to refer to, but in the absence of accurate information and for the want of time, they are deferred. It will be my agreeable duty to furnish any other facts, within the reach of this Department, which may be desired by your Honorable Body.

It is gratifying to be able to state, in conclusion, that although the condition of the Treasury is such as to demand grave consideration and careful economy in the expenditures, yet, there is no sufficient cause for the apprehension of serious embarrassment. Unless there should be some untoward interference with the revenues of the State, in the year 1867 will again commence the rapid reduction of the State Debt. Within the current year all liabilities on account of bounties will probably be discharged, after which, the excess of revenue over the ordinary expenses of the State, approximating a half million of dollars, annually, may be applied to that object.

In the discharge of the onerous and complicated duties of this Department, it affords me pleasure to say, the hearty co-operation and valuable assistance of the Treasurer has been readily given.

Respectfully submitted,

ROB'T J. JUMP,

*Comptroller.*
